Zia Tutor AI

The Ecosystem, Chapter 8/9 — Revision & Viva-Prep Cheatsheet (English + Roman Urdu)
Source: agentfactory.panaversity.org/docs/ecosystem-zia-tutor-ai

EN: A chatbot answers. Zia Tutor AI teaches -- it picks a sequence, checks understanding, and makes 'continue where I left off' actually true, because it has a Learner Record no bare model carries.
Roman Urdu: Chatbot jawab deta hai. Zia Tutor AI sikhata hai -- sequence chunta hai, samajh check karta hai, 'wahin se continue karo' sach karta hai kyunke iske paas Learner Record hai jo koi bare model nahi rakhta.

1. One Purpose, Two Roles, Three Records

- **Purpose:** give you the expertise to build AI Workers/Digital FTEs and become an FDE.
- **Two roles:** personal learning agent for the learner; reference expert twin for the Agent Factory (Layer 2 position every future vertical twin will copy).
- **Three governed records:** Knowledge Record (the SoR itself), Learner Record (goal/progress/understanding/next step), Identity Record (Zia's voice/principles/method).

2. Setup -- Connector + Skill (~2 minutes)

- **Connector:** Connectors -> Add custom connector -> Name 'Zia Tutor AI' -> MCP URL https://zia-tutor-ai.panaversity.org/mcp -> OAuth Client ID zia-tutor-ai -> Connect, sign in, approve. Set tool permissions to 'Always allow'.
- **Skill:** download zia-tutor-ai.zip, upload as a skill (don't unzip it).
- Start any chat with /zia-tutor-ai. Currently Beta 1 -- expect rough edges.

Key Terms Cheatsheet

One line each — English + Roman Urdu.

Term	English	Roman Urdu
Digital twin	An AI encoding a real person's teaching voice, principles, and method.	Real insaan ki voice/principles/method encode karne wala AI.
Knowledge Record	The underlying System of Record -- what to teach.	Underlying SoR -- kya sikhana hai.
Learner Record	Your goal, progress, understanding, and next step.	Aapka goal, progress, understanding, agla step.
Identity Record	The teacher's voice, principles, and instructional method.	Teacher ki voice, principles, method.

Quick Self-Check

Question	Answer
What's the key difference between a chatbot and Zia Tutor AI?	A chatbot just answers; Zia Tutor AI sequences, checks understanding, and remembers via a Learner Record.
What are the 3 governed records behind Zia Tutor AI?	Knowledge Record, Learner Record, Identity Record.
What's Zia Tutor AI's position in the FDE AF Model?	The Layer 2 reference-expert position -- every future vertical expert twin (accounting, legal, medical) will copy this pattern.

Where This Leads / Sources
